

ALF CP-Box

Product Introduction

ALF CP-Box 12V Access Control Panel Power Supply is a non-high-frequency interference ripple of linear DC power supply, It is practical, Simple interface, Design features such as stability, performance, A power status indicator light, May direct that power failure, Is a good cost performance of the module.

Product Features

- 1.Special Design, Suitable for ZK Teco Access Control Board.
- 2.Produced with original high-quality imported components.
- 3.Multifunctional Access Control Output Contact, Can Directly Connect Electric lock, Switch, Door Bell, etc.
- 4.The Best Choice of Access Control System.

Technical Specification

Input Voltage	220VAC~240VAC;50HZ
Output Voltage	11VDC-14VDC; 3A
Output Contact	Lock, Access control, Exit Button
Material	Shell: Iron Material, Painted
Time Relay	0~30sec
Suitable For	E and L Series Access Control Board.
Optional Accessories	E and L Series Access Control Board.
Optional Function	110v Input Voltage Customization Available
Dimensions	273*228*65(mm)
Gross Weight	2.9kg
